

WEEKLY DAY CAMP THEMES 2017

Session 1 & 2

June 12-16

June 19-23

Winged Things

Fly high with us as we explore the world of birds, bats and bugs that take to the skies!
Learn to identify our local winged friends and what makes them so unique!

Session 3 & 4

June 26-30

July 10-14

Water World

Whether it's the Grand River, Peppermint Creek or a rain puddle, dive into the world of water with us and explore the life it brings to all kinds of critters, including us!

Session 5 & 6

July 17-21

July 24-28

Jump, Slither & Slide!

Warm up to the cold-blooded world of reptiles & amphibians as we explore their unique life cycles and what makes them so important to our ecosystems!

Session 7 & 8

July 31-August 4

August 7-11

Warm-blooded Wonders

What makes mammals so special? How are we similar to birds? Find out as we explore a world of fur and feathers, special adaptations and where we fit in with our fellow furry friends!

Session 9

August 14-18

Ecosystem Explorers

Join us as we observe all forms of life and how they are connected. From the bald eagle that fishes out of the Grand River to the tiny creatures that live in the dirt, we will explore it all big and small!
